

TO: Governor, Pueblo of Laguna (POL) July 12, 1988
FROM: Reclamation Coordinator *Richard M. Wilson*
Subject: Travel Authorization and Interim Per Diem Rate for Denver Trip.

The meeting with Kenneth King of the United States Geological Survey is set to begin on Thursday morning, July 14, and continue through as much of Friday, July 15, as is necessary. It may be necessary to return on Saturday morning, but I doubt it.

Atiq tells me that there are no specific travel regulations that apply specifically to the reclamation effort. I suggest that for the present, we use the G.S.A. regulations that the B.I.A. itself uses. The amounts are adequate but not excessive. In the case of the Denver trip, the per diem rate is \$96.00 per day, with \$63 allocated for lodging and \$33 for meals. Only lodging receipts are saved. As I understand it, the POL is eligible for Government rates.

I hereby request authorization to travel to Denver, Colorado to confer with Dr. Kenneth King of the U.S.G.S. for the purposes of reviewing the blast damage report and retrieving as much information as is available from his field notes. The duration of the trip is estimated at 2 days, and the above mentioned G.S.A. rates would apply.

I concur _____

Governor
